Front End Developer / UI UX Designer

Summary

I am a dreamer and a fanatic of all digital things. I've been coding for the last 2.5 years and I love it. I am graduated as a Software Engineer. I have developed a lot of websites and web applications using a combination of Front End technologies. During my old days, I have used HTML, CSS, JavaScript, Bootstrap, Tailwind, SaaS, LESS, Laravel, and Adobe XD, Figma tools & framework for building & Designing web apps and websites. Looking for an entry into highly professional organization with Competitive environment, where I can use my knowledge and skills to achieve the organization goals and also get opportunity to learn new technologies.
